

# Martin Ogbemudia

## Frontend Developer

Just 1 years of professional experience conducting Frontend research and coding end-to-end user flows.

I enjoy working in close collaboration with teams across technology, business and design.

## Work experience

### Frontend developer

Alx Africa / Remote 2022 - 2023

During my internship with the Alx Internship Program, I actively participated in constructing real-world projects and collaborated with fellow interns to address intricate challenges. This hands-on experience significantly contributed to the development of my soft skills, including effective communication, problem-solving, and teamwork.

### Frontend developers

Upwork/Remote 2022 - 2023

I gained hands-on experience as a beginner frontend developer by working as a freelancer on Upwork. During this time, I dedicated myself to building websites, contributing to real-world projects, and learning the ropes of the industry. This freelance journey allowed me to delve into the practical aspects of frontend development, honing my skills in creating user-friendly and visually appealing websites.
